SETUP

1. Install spikes, 3/8" washers and 3/8-16 jam nuts into the threaded inserts on the bottom of the stand. (see figure 1)
2. Adjust the spikes so that the top of the speaker is level and tighten the jam nuts.
3. Place 1 bluedot on each corner of the top tee. Tale care to not cover the holes. (see figure 2)
4. Insert the location studs into the bottom of the speaker so that about 12mm is sticking out of the speaker.
5. Set the speaker on top of the stand so that the location studs are in the holes in the cross bar and rear location hole.
6. Place the speaker and stand in their desired position and enjoy the music.
